

VEHICLE TRACKING & ASSET SECURITY

AMTECH Int. (Pvt) Limited
www.startechnologies.com
UAN: 111-111-212

It is a pride for us that we have successfully provided our customers peace of mind through reliable and sound vehicle tracking, fleet management and asset security solutions.

With improved fleet efficiency, our customers have managed to enhance their business performance and productivity substantially. Our Order Tracking System is now a smart way of tracking and monitoring the order and inventory flow in a supply chain and distribution network.

The Home & Commercial Security wing is continuously winning th hearts of people in the private and corporate sectors by providing them security in their environment with the most reliable and advanced security system.

We will continue to integrate the latest technological tools, research and development, management techniques and sales & marketing efforts to deliver value added solutions for mobile and fixed asset monitoring.

*I am thankful for the contribution and sincere efforts of my entire team who have won laurels for **AMTECH Int. (Pvt) Limited.***
