Our Company

Genese Solution is a digital technology service company, we enable companies to evolve with greater efficiency by transforming their operational models & technology systems.

Our objective is to design, deliver, and innovate; to create an transformational ecosystem in the ICT sector, across different global locations. We enable companies and startups across Europe and Asia to efficiently and cost-effectively utilize their ICT capabilities to deliver their own products and services better.
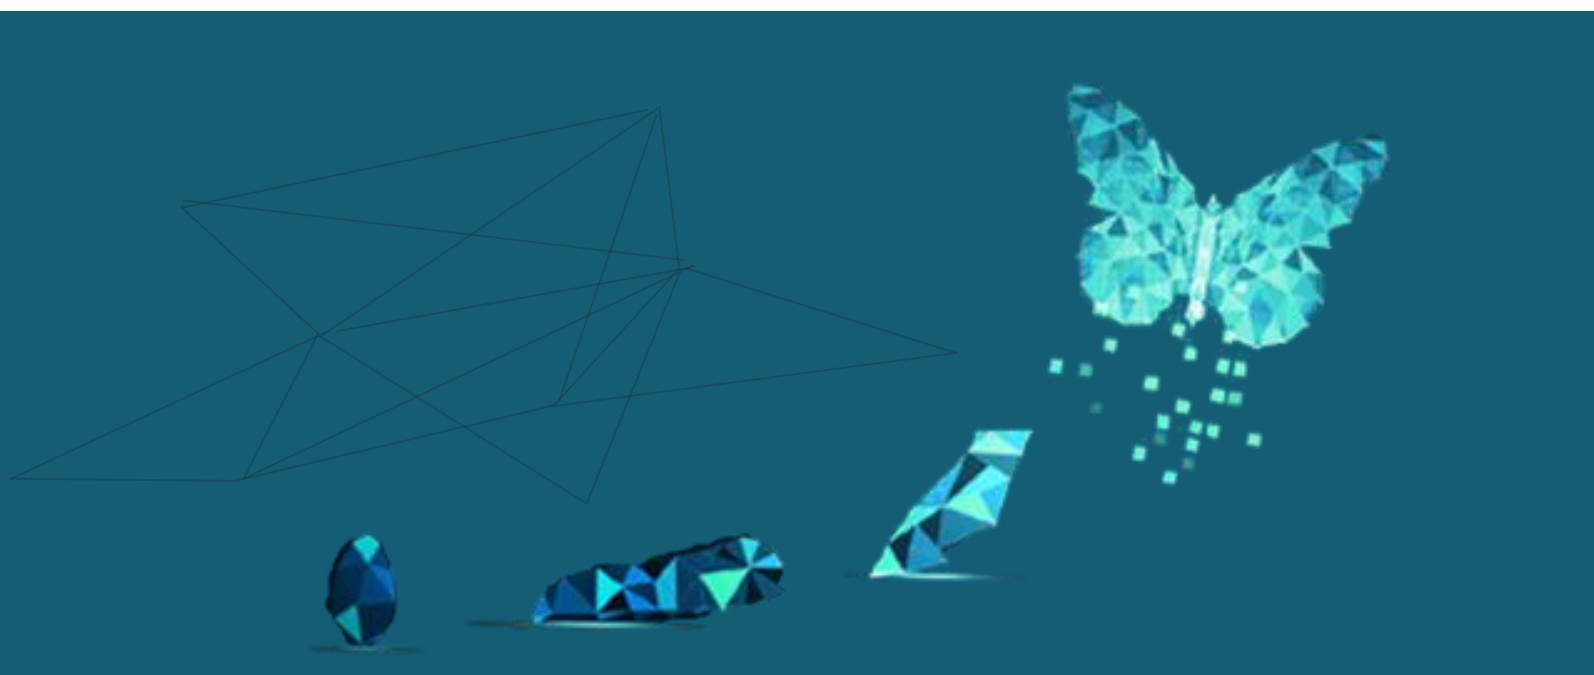

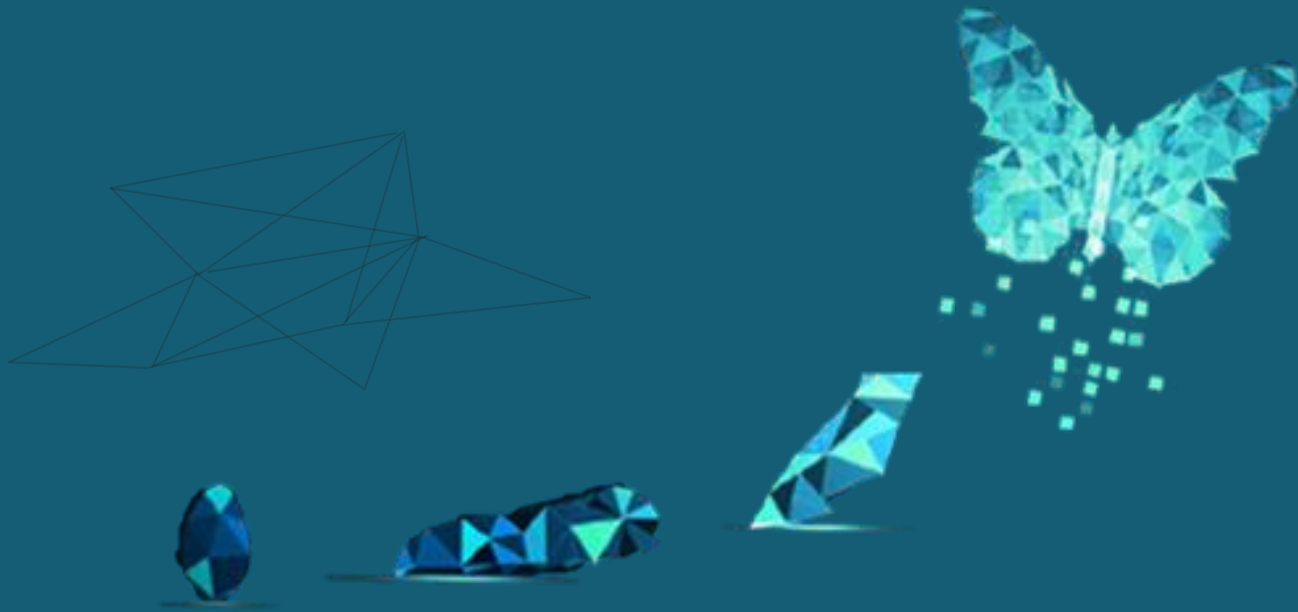

Vision

To be a key contributor in Digital Transformation and beyond leveraging the power of cloud computing and technology.

Mission

Being a partner of choice for digital transformation, bringing success to our clients through innovation & customer service excellence.

Respect

Team Genese

Our team is our strength.

Since we first began our teams have always been the main drivers of our growth, always improving & never settling on quality & customer service. At Genese, we're committed against stagnation, we're always learning, always improving and always evolving.

We define our teams & our culture on four aspects.

Friendly

Our teams are young & friendly. Enthusiasm is high & the environment is casual. We emphasize our employees so they can feel comfortable, appreciated, and valued. Our beliefs: everyone must be treated with fairness & utmost respect.

Collaborative

Our teams work along causally at ease regardless of departments. We appraise the collective way of work, employees are expected to bounce ideas off of each other and work well as part of a team. It's our strong suit, our processes & teams are interconnected in multiple levels, members aren't siloed from the rest of the company.

Creative

We are changemakers & change-making at times is radical. We appreciate innovation & new, our team's can be often found working together & there's an emphasis on brainstorming, feedback, & innovation; someone said there's a better way to work, we're all ears.
The company culture operates outside of the typical office structure. Processes are more casual, but still results-oriented.

Progressive

Learning never stops for us, being better continuously is our goal & we crave growth quite a bit at Genese. There's no shortage of work to be done at this company & also no shortage of growth & appreciation too. We provide ample opportunities & be supportive for growth seekers so that they can upskill & grow into better leaders. The workday goes by quickly and no two days are exactly alike.

Our Global Footprint

Headquartered in Plymouth, UK,

we have a presence in 8 countries with 9 offices globally.
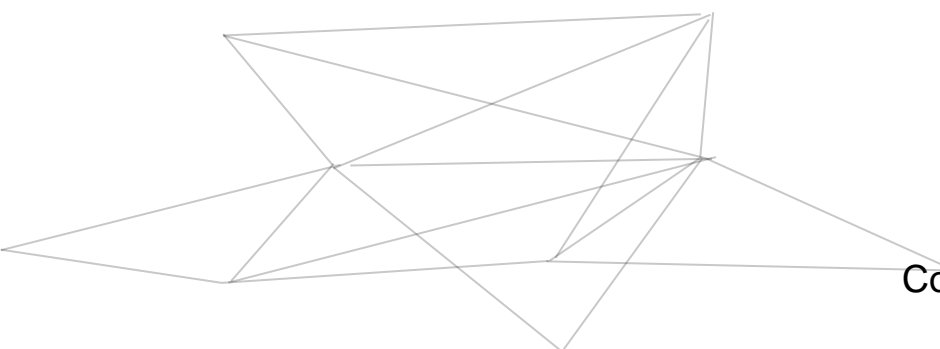

GENESE EXPERTISE

Genese demonstrates superior expertise in every facet of our business, including

Cloud Consulting,
DevOps & IT Management,

Initiates for Change

Genese Cloud Academy

Genese Cloud Academy (GCA) is an independent educational branch of Genese. When we started out, we were one of the first companies to work with a cloud in a full-fledged way in various countries like Nepal, Bangladesh & Pakistan. We saw that the general market in these countries lacked expertise in the cloud & we initiated the GCA to change this through teaching cloud computing. GCA now is present in Nepal & Pakistan & we aim to take it to our other country offices to expand the Cloud expertise in the market.

Girls In Tech Collaboration

We are supporters of Girls in Tech(GiT) Nepal which aims to create a better ecosystem in the ICT sector for girls in Nepal. A lot of our team members are actively present with GiT Nepal & keep working to create a change in the ICT sector in Nepal.
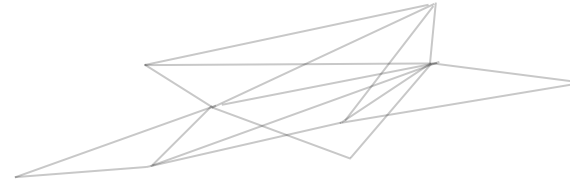

Collaboration with KPK Youth Employment Programme Pakistan

We are in collaboration with KPK Youth Employment Programme Pakistan which aims to increase the youth employment rate in the KPK Province through providing technical knowledge/training youths in the province. Genese works with the KPKYEP in providing training on cloud computing & ICT fields. We've trained more than 3500 youths till now through this partnership.

Collaboration with UKaid Skills for Employment Programme Nepal

We are in Collaboration with UKaid Skills for Employment Programme Nepal it aims to increase youth employment rate in Nepal & our partnership conducts training across various regions in ICT domain to upskill the youth for better employment opportunities. We've trained 6000+ youth across Nepal through this partnership.
